

# Michigan Made Advanced Athletics

## Health & Safety 2020

Michigan Made Advanced Athletics is taking extra precautions with the care of every client, camper, coach, volunteer, athlete and parent. These policies are mandated all Michigan Made Advanced Athletics platforms for all athletes, coaches, officials and spectators, and will be strictly monitored.

Symptoms of COVID-19 are not limited to, but include:

- Fever
- Fatigue
- Dry Cough
- Difficulty Breathing

### **Decreasing Potential Exposure to Respiratory Droplets**

- All coaches and athletes will be screened daily for signs and symptoms of COVID-19 prior to participating, including a temperature check. This check will take place onsite.
- Anyone with a temperature of greater than 100.3 degrees should not participate and be sent home.
- Responses to screening questions for each person will be kept so that there is a record of everyone present in case a student-athlete develops COVID-19. These records will be kept confidential.
- Any person displaying symptoms of COVID-19 will not be allowed to participate.
- Vulnerable individuals should not coach, supervise or participate in any camp, competition or practice.

- “Gaiter” face coverings will be made available to all coaches, officials and athletes participating in our leagues. **When in close proximity to other coaches or other players** (for example, in the huddle), athletes, coaches or officials will be required to have their mouth and nose covered. It is the duty of each coach and league officials to reinforce this rule.
- While participating on the field athletes are not required to wear face coverings but are permitted to do so.
- Contest management and volunteer staff are required to wear face coverings during leagues and camps. It is recommended but not required, that spectators also wear face coverings. •Spectators **MUST** practice social distancing as described by the CDC and local health departments.
- There will be designated and clearly marked “spectator only” areas. **Only players, designated coaches and officials will be allowed near the sidelines or field of play.**

### **Hygienic Considerations**

- There will be sanitization stations around the playing, practicing and spectating areas.
- Athletes will have opportunities at arrival and departure for sanitization of their hands and personal belongings.
- Coaches and officials should sanitize frequently.
- All balls, equipment, frequently used items and surfaces will be cleaned as much as possible.
- Please avoid touching your face, spitting of any kind, and sneeze or cough into a tissue or inside of your elbow.
- There will be NO pre-game or post-game handshakes, high fives, etc.**

- There should be no shared towels, gear, etc. between athletes. Athletes should wear their own appropriate uniform and they should be washed after every workout.
- All athletes **MUST** bring their own water bottle. Water bottles should be labeled and not shared.

### **Protocol for Positive Cases**

- Contact Health Department or your primary healthcare provider and follow guidance.
  - Report information to Vince Agnew (vinceagnew@michiganmade.net)
  - Do not return to activity for 14 days or until producing a negative test if you, or if someone deemed in “close contact” with you, has displayed symptoms of covid.
  - Students, coaches, officials and others at the event but NOT in close contact should be closely monitored for symptoms. Remaining symptom free, they may continue to participate. Follow health department guidance on whether you should be tested in this occurrence.
  - If a team has to quarantine during season due to a potential exposure, the game is a no-play and will not be considered a forfeit or loss in standings. The contest will not be rescheduled.
  - If the league is cancelled for covid related reasons or changes in local health and safety guidelines, there will be pro-rated refunds made available.
- \*Your health information is protected. Even if a family/athlete acknowledges and publicly discloses a positive test, league officials will not participate in the discussion of a positive test identifying a family/athlete at any point.
